

Marc-Alexandre Labrecque, FSA, FCIA

**Principal
Mercer (Canada) Limited
Montréal, Québec**

Marc-Alexandre Labrecque is a principal consultant specializing in pension and benefits advisory at Mercer Canada. He has over twelve years of experience advising clients on a wide range of pension plan matters, including funding, accounting, plan mergers and splits, negotiation strategies, acquisitions, and risk management. Marc-Alexandre provides actuarial consulting services to various types of pension plans, including municipalities and public sector entities, both for annual mandates and special projects. He has actively supported numerous clients through negotiations. He has developed and delivered training sessions for organizations such as the Association de la retraite et des avantages sociaux (ARASQ) and the Retirement Plan Administrators' Circle for university and municipal sectors. He holds a bachelor's degree in actuarial science from UQAM and is a Fellow of the Society of Actuaries and the Canadian Institute of Actuaries.
